THIRD WATCH STUDIOS

WEB / SPLASH PAGE STARTER KIT

A compact brand kit for building a dark, cinematic splash page and early web presence. Use these assets for short-term digital deployment; redraw the final logo as true vector art before launch, print, merchandise, or trademark use.

LOGO SYSTEM

Logo System

Use the full lockup for splash screens, hero sections, trailers, pitch decks, and press materials. Use the emblem for favicons, social avatars, Discord, small UI stamps, and watermarks.

CORE IDENTITY

tower + amber window + circular watch-cycle aura + premium wordmark

SHORT-TERM NOTE

These files are ready for prototypes and a temporary splash page. They are not a substitute for a final designer-redrawn vector logo system.

Color Palette

DEEP SEA NAVY
#071419

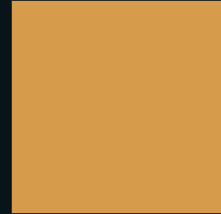

CHARCOAL
#111416

STORM GRAY
#4E585B

FOG STONE
#B8B2A6

Primary text, tower highlights, neutral surfaces

Warm Amber Beacon - #D69B4B

Aura, window, dividers, links, active states

Website Splash Direction

RECOMMENDED HERO LINE

Stories endure after midnight.

Keep the page sparse: centered logo, one short headline, one amber divider, one paragraph, and a simple contact or press-kit action. The brand should feel quiet, premium, and atmospheric.
